Projects

Connect Our Kids React Native Mobile App

June 2019 to July 2019

React | React Native | Redux | EXPO

- Worked on a team with 4 other engineers building version 1 of a React Native application to supplement the web version of the existing service for Social Workers.
- The app helps locate extended family members of foster children to potentially prevent them from having to be integrated into the foster system if a willing and able family member can be located.
- I was responsible for building out the navigation, multiple views modal sequences and implementing user activity tracking to have a record of users behavior and interactions with the application

Hurry Up Print Website

Dec. 2019 to Current

HTML5 | CSS3 | PHP | Materialize CSS | MySQL

- An e-commerce print shop website built on the LAMP Stack
- Offers the owner an admin dashboard for inputting new products, viewing customers orders and survey/questionnaire responses.
- Has product pricing calculators for square footage based products.
- This is an exploration into Procedural PHP to become familiar with it.
- Solely responsible for all aspects from creation to deployment

Personal Resources, Notes and Blog

Oct. 2019 to Current

React | GatsbyJS | ContentfulCMS | SCSS

- Built out to explore using GatsbyJS for rendering static pages while still using react and getting SEO benefits from server-side rendered pages and meta data being expoded on each page.
- Blog posts can be added using a GUI interface from Contentful CMS
- Resources/notes get generated from Mark Down pages.
- This site demonstrates how a site can be built for a client that is not knowledgeable in coding but still provide them with a means to update and input their own content via the Contentful GUI interface.
