Projects

Connect Our Kids React Native Mobile App

June 2019 to July 2019

React | React Native | Redux | EXPO

Worked on a team with 4 other engineers building version 1 of a React Native application to supplement the web version of the existing service for Social Workers to help locate extended family members of foster children to help prevent them from having to be integrated into the foster system if a willing and able family member can be located. I was responsible for building out the navigation, multiple views modal sequences and implementing user activity tracking to have a record of users behavior and interactions with the application

Hurry Up Print Website

Dec. 2019 to Current

HTML5 | CSS3 | PHP | Materialize CSS | MySQL

An e-commerce print shop website built on the LAMP Stack offering the owner an admin dashboard for inputting new products and viewing customers orders and survey/questionnaire responses in addition to product pricing calculators for square footage based products. This is an exploration into Procedural PHP to become familiar with it. Solely responsible for all aspects from creation to deployment

Personal Resources, Notes and Blog

Oct. 2019 to Current

React | GatsbyJS | ContentfulCMS | SCSS

This site is built out to explore using Gatsby JS to render static pages while still using react and getting SEO benefits with having the pages pre-rendered and meta data being injected into each page. The blog posts can be added using a GUI interface from Contentful CMS and the resources/notes get generated from Mark Down pages. This site demonstrates how a site can be built for a client that is not knowledgeable in coding but still provide them with a means to update and input their own content via the Contentful GUI interface.

Employment

Lambda School

Remote

Team Lead

Aug. 2019 to Sept. 2019

Led a diverse team of 9 Data Scientists, Full Stack Web Engineers and iOS developers in completing their capstone project, contributing to the code base, various DevOps tasks, code reviews, and leading daily and weekly stand ups and 1 on 1s.

Lambda School

Remote

Project Manager/Teacher Assistant

Feb. 2019 to June 2019

Led a group of 5-11 students through daily 1 on 1s, stand-ups, and support hours to provide code reviews, supplemental lectures on special topics, and share code improvement techniques and tips. Led code review of students' solo projects that tested retention of each week's concepts and material. Directed students to find their own solutions and effectively debug their own code.
